ABSTRACT: Bring together 9 insurance technologists and at times it seems one gets 36 different points of view. That is...

... with one of 4 sometimes contradictory points of view: 1. E-commerce is revolutionizing the insurance world. 2. No, parts of it are still too far ahead of their time. 3...

...John Albanese, senior vice president of customer service and information systems, The Penn Mutual Life Insurance Co., says his company looks at electronic commerce as enhancing its distribution because it is...

TEXT: Headnote:

Nine insurance technology leaders map out the pitfalls, detours and rewards along the road to electronic commerce.

Bring together nine insurance technologists and at times it seems you get 36 different points of view. That's...

...part with one of four sometimes contradictory points of view: E-commerce is revolutionizing the insurance world. No, parts of it are still too far ahead of their time. No, it...

...John Albanese, senior vice president of customer service and information systems, The Penn Mutual Life Insurance Co., Horsham, Pa. Penn Mutual is a life insurance company that sells through professional agents and financial advisors.

RE VIEWED
-sl

Pat Breslin, webmaster, New Jersey Manufacturers Insurance Co., a property/casualty insurer that primarily offers auto and homeowners coverage direct to the...

...that sells through independent agents.

Paul Fusco is vice president for information technology services and client relations executive for enterprise applications at Metropolitan Life Insurance Co., New York. His job includes overseeing 400 developers, including 225 internally based technicians and the rest on a consulting basis. MetLife's offerings include life insurance and annuities, health and dental programs and some property/casualty offerings.

Peter Graham, vice president for information technology, Direct Response...

...owned, involves some of the prime movers behind the U.K.-based "Red Line" auto insurance organization. Direct Response hopes to emulate in New York the success Red Line found in direct marketing of auto insurance via the telephone.

James Harkness, second vice president, Internet communications, for Teachers Insurance & Annuity Association-College Retirement Equities Fund, New York. TIAACREF is the world's largest private system and the largest seller of life insurance and annuities to the education market.

Joseph Hoane, senior vice president for information systems, PXRE...

...operates in the broker reinsurance market, selling mainly through intermediaries and servicing the property/casualty insurance market.

Tom Pilitz, chief technical architect, American Re Insurance, Princeton, NJ. Am Re operates in a variety of reinsurance and related markets, including the direct reinsurance market and the alternative insurance markets.

Robert T. Wheeler, managing director and chief information officer of Crum & Forster Insurance, Morristown, NJ. Wheeler brings the unique advantage of being a member of the company's...

...of what we're providing, not only to the agent but also to the end client. That's a whole different paradigm. That really causes you to look at a lot...

...commerce because we look at the markets that we're in and who is our client. It's really a customized sale. It's sitting down and understanding that individual's...

...it depends on what you're looking at. If you're looking at term life insurance, what you're looking at is more and more pressure on margins, more and more... technology is going to do is make you decide what your business is. In the insurance industry, this technology is not a single technology like the telephone. It's the confluence...

...do is ask us questions, like are we in the business of doing personal lines insurance, commercial insurance, whatever? Are we in the business of care and feeding of agents? Every insurance company, every financial services company, every company of whatever industry is going to be catalyzed...

...initiatives. One of my other jobs at Chubb is the system manager of our general insurance division, which is that part of our commercial business

that focuses on the customer that...

... depends upon the agent to make decisions for them at renewal time. They abdicate their insurance decisions to the agent. We have always felt the agent was key to our business...But is there at MetLife?

Fusco: Yes. You can, from a commodity standpoint, have boat insurance, home insurance. We will be at some point taking term insurance to the Net. But where we've taken the "fourth channel," as it's known-the...

... for a change of address, a quote dividend, a possible turn-in of their life insurance, a beneficiary and assignment change, as soon as that call is taken and as soon...

... question is the career agents today who make an awful lot of money selling life insurance without the Net. If the Net is in fact available, what do we do with...should be hours-at least days.

We would love to see the day when an insurance company will send out a request in the form of an electronic data interchange message...

...But I know the states out there where you can't get at the information real time. There's a wonderful source of information in there for insurance companies, if only they would integrate their systems more and allow us access to that...

...building for us, so how can we leverage that and keep our focus on the insurance business? Some of it goes better than others. We continue to sort of push the...s another category of partnering with our distribution system. An example is putting personal lines insurance on the intranets of other companies for their employees to buy as part of their...lines of business together into one practice.

We've just finished introducing imaging to our dental -claims processing unit. We are processing roughly 55,000 to 60,000 claims through that...

...not selling in a lot of states except for Utah. Utah is one of the insurance -friendly states; our home and auto, property/casualty, is in fact selling and quoting in...

...and an independent agent system.

When we talk about electronic commerce and communicating with the client, we're really focusing on what do we do with the agent, what do we...

...policyholder. But the relationship that we have is with the producer.

We've had a client database in place for a while. It gives us a common look and feel across our systems and allows our producers and customer service staff to recognize a client as having multiple business relationships with us, whether it's through an annuity or a life insurance product. Anybody who has e-mail capability through the Internet can access us and vice...

... a very special situation. We are a property/casualty company providing basically three lines of insurance -workers' compensation, auto and homeowners-almost entirely within New Jersey. We have 1% of our...

... and no agents. We're a direct writer. For a long time, using our mainframe computer was our technology. We're growing beyond that but we're going slowly because we...

... we are posting updated news events on it because we are in New Jersey Auto insurance in New Jersey is a major political issue and we're heavily involved. We have given our policyholders an opportunity to respond with comments about the politics of auto insurance in New Jersey. So far, only two people have done so. That's an indication...

... visitors go to sites that are fun or news oriented but personal-lines property/casualty insurance falls more in the area of chore than fun.

We don't want to get dragged into treating the Internet site for an insurance company the way you might if you were providing either a news outlet, investments or...

...So it won't be a quicky-quote process.

We are covered by New Jersey insurance regulations that require that such applications be worded exactly by the state's mandates, that...

... of events that took place last summer in the Taxpayer Relief Act, many of our eligibility constraints are now sort of waning. We will probably be moving beyond the core markets...

... of interactive tools that are not mainframe linked. We give online premium quotes for life insurance. We let them request retirement planning scenarios. We let them look at the impact on...

... a comprehensive online magazine, including customizable intraday market views that are on oneminute setback from real time, lots of things like that. We're partners with Reuters News Service for that, as...We're in the reinsurance business. Our customers are not the public customers but rather insurance companies. We're not dealing with thousands or even millions of policyholders. We're dealing with hundreds of insurance companies. So our problems are a little different. That affects our posture within electronic commerce...

...auto policies in the state of New York. I used to work in Direct Line insurance in the U.K., the red telephone obviously being the brand there. Here we're also using the red telephone.

We've got a three-tier architecture, client - server. We're using a mainframe really as a super-server, then NT-class servers and NT workstations on the desktop. Our call center is in...

...we need to serve them.

Wheeler: We have a very narrow focus. We do commercial insurance for a very limited number of professional agencies around the country. Basically we do about... It's about how we service first of all our customers, the agent and their client.

...DESCRIPTORS: Insurance industry

Insurance Solution

Accenture's Insurance Solution provides large and mid-sized insurers comprehensive system support for major lines of insurance businesses--auto, home, commercial lines, life and pension plans. Consisting of modules focused on each component of the insurance enterprise in both P&C and Life companies, Accenture's Insurance Solution can be implemented in parts to address specific areas of concern. Alternatively, implementation as a total package enables Accenture's Insurance Solution to serve as the foundation for a broad transformation program. Modules cover core insurance functions including product development, underwriting, policy administration, claims, ratings, billing, financial reporting and customer acquisition...
